

Consultedge Reports Record Growth in FY 2006

(Whippany, NJ July 27, 2007) — Consultedge, Inc., a leading provider of telecommunications solutions that drive business performance and efficiency, today announced revenue growth of 65% for FY 2006 compared to FY 2005. The company's rapid growth was recognized in 2006 and 2005 when Consultedge was named to Computer Reseller News (CRN) Magazine's Fast Growth 100, an annual ranking of the nation's top 100 solution providers based on revenue growth during the previous two-year period.

"Our company's growth over the past several years reflects the talent, knowledge and dedication of an exceptional group of people," said Neal Stanton, President and CEO of Consultedge. "Our people are unequalled at understanding a client's business strategy and developing a communications solution that fully supports our client's strategic, operational and budgetary needs. It is that combination of technology expertise and business savvy that resonates with our clients – and that drives our company's growth."

Consultedge serves organizations in the financial, commercial, real estate, utility, government and non-profit sectors. Recent projects include a voice and data communications solution for the new Prudential Arena in Newark, NJ, a multi-purpose entertainment and sports arena that will be home to the National Hockey League's New Jersey Devils; a multi-site telephony system connecting offices in New York, New Jersey, London and France for Wall Street Systems; and a comprehensive communications solution for one of the world's largest commercial real estate firms.

"Our reputation for putting our clients' needs first and foremost has been the fuel for our growth since Consultedge was founded," said Thomas Melville, Executive Vice President and Chief Operating Officer. "We are continually reinvesting in the company by establishing additional offices around the country, adding exceptional staff, and expanding the services and capabilities we offer to our growing number of clients in the US and abroad."

In 2006, Consultedge was named to NJBiz.com's 50 Finest, an annual ranking of New Jersey's fastest growing companies. Consultedge was one of only 15 technology service providers included on the list. Other 50 Finest designees included New Jersey-based units of multinational enterprises Daiichi Sankyo and Topcon America. Eligibility for the annual ranking is based on demonstrated revenue growth over the previous three years.
